Come and see us on the suggested check up dates above so we can review your wrap and make sure it passes our approval process. Please ensure that you call ahead to book this visit with us first. These checks are complimentary to you and help ensure you get the longest life out of your wrap.

These checks are just another way to show you that we appreciate your business and will go the extra mile to give you 100% customer satisfaction.

For full information on your guarantee, please see your warranty document. Otherwise, you may check our website at vinylogyco.com or contact your sales representative.

How to take care of your vehicle wrap:

Welcome to your new wrap! With proper care, this wrap can give you years of pleasure. Please review these guidelines for maintaining the wrap to prolong the finish and ensure long term durability. Keep this in your glovebox - it contains valuable care information and your guarantee.

Hand wash is preferred.

Take care of edges, particularly on doors/trunk/hood. Should any damage occur, contact us immediately. Do not try and fix it yourself or the warranty will be voided.

Remove bugs and bird droppings immediately as they can stain the wrap. Soak them and wipe them off without scraping.

Use aftercare products on a bi-weekly basis as these clean and protect the wrap which ensures that it looks brand new for years.

Additional aftercare products available for purchase.
